# Kimseed Small Sample Thresher Mobile or Fixed Models

The **Kimseed Small Sample Thresher** is designed for threshing small quantities of research cereal grains and legumes, tree and shrub seeds in **field** or **laboratory** situations.

## FEATURES

- Powered by electric or petrol motor
- Lever operated **variable speed** threshing drum and cleaning fan
- Designed for threshing **single heads or small groups** of grains, cereals etc.
- Designed for easy inspection and cleaning to **stop contamination between samples**
- The threshed material falls through a suction airflow that **removes the trash** and allows seed to drop into the collection tray
- **Perspex sides** to the fixed model threshing cylinder, allows the user to see when threshing is complete
