Kimseed Belt Thresher

The Kimseed Belt Thresher is designed specifically for seeds which are susceptible to damage during normal threshing.

It has a lever operated variable speed threshing mechanism and a lever operated variable speed cleaning fan.

Plant material is gently rubbed between the two 300mm wide belts removing seed with minimal damage. Threshed material is then delivered to an air column cleaning system.

Powered by a 240v AC Single Phase electric motor and easily movable on wheels. Dimensions:

Length - 1800mm
Width - 800 Hmm
Height - 1250mm
Weight - 180kg (Approx)
