Kimseed Trailer Thresher

The Kimseed Trailer Thresher is designed for "in-field" threshing of larger quantities of cereal grain and legume, tree and shrub seeds. It can be towed behind **any motor vehicle** to the plots to be threshed and then each plot harvested by hand and fed into the thresher.

FEATURES

Threshing Drum

350mm diameter, 500mm wide, 6 R asp Bar. Drum speed is regulated by Vari-pulley to cover a wide range of speed requirements.

Concave

Closed over-shot Rasp Bar type, which can be quickly opened for inspection.

Grain Pan

Vibrating crimped type, which feeds threshed material to a lip-type cleaning sieve, which has an adjustable winnowing type fan blowing air through it. Different size cleaning sieves can be supplied for different seed size requirements.

Engine

Single cylinder air cooled petrol engine.

Will thresh up to 200kg per hour

Dimensions: (approx)

Overall length	– 2500mm
Overall width	– 1800mm
Overall height	– 1300mm
Overall weight	– 600kg
