

## ABOUT THE PRICE LIST

All of our seeds are arranged in alphabetical order by genus and species name. Most species are sold by weight, but some (eg. *Banksia* and *Dryandra*) that are more variable in seed size are sold by number.

Prices generally reflect the degree of difficulty in the procurement and processing of the seeds, and are subject to change without notice. We recommend that you ask for a quote first. A base gram or unit rate is provided to allow easy calculation of any quantity of seed. A minimum sale quantity applies to all lines and is specified alongside the prices.

We maintain large quantities of seed at our Perth warehouse at all times and in the unlikely event we are out of stock on a particular line, we will source it for you.

## TERMS OF TRADE

### PRICES

- Prices quoted are ex store, and in Aust. dollars (AUD).
- All packed seed is sold on a net weight basis.
- For those seeds sold by number (eg. *Banksia*), the 1000-seed rate applies to orders of 250 seeds or more. All other species are sold by weight, with the kilogram rate applying to orders of 250g or more.
- For quantities less than 250g, the gram rate applies.
- The minimum total order is \$50 dollars.
- F.O.B. & C.I.F. prices are available on request.

### FREIGHT & POSTAGE

- Cost of postage or freight is extra on all consignments (please specify carrier).
- Freight costs will be invoiced together with the seed.
- Freight insurance is available upon request.

### PAYMENT

- For approved credit account customers, terms are strictly 30 days.
- Interest may be charged at current bank rates for overdue accounts.
- Payment accepted by cheque, money order, major credit card or electronic transfer.
- Payment for freight to be included.

Please note that prices quoted are a guideline only and they change from time to time. Before making any payments please check with our office to establish the current selling prices.

**BANK DETAILS**

Bank: ANZ Bank  
Address: 15 Hutton Street, Osborne Park, WA 6017  
Account: Kimseed International Pty Ltd  
BSB No.: 016 412  
Account No.: 4996 24807

## **OUR SEEDS**

### **QUALITY**

The Kimseed reputation rests on providing quality seeds and services. We maintain our high standards by:

- Using modern seed cleaning and processing equipment;
- Employing skilled personnel, with a policy of continuous training and development;
- Having a system of quality controls throughout the processing stage;
- Using a custom-designed computerised stock control system to access specific detail about each batch of seed; and
- Maintaining stocks in a controlled storage environment.

If required, seeds ordered may be supplied with seed quality certification, stating batch purity, viability, and germinability. This certification is conducted by an independent laboratory at an additional cost.

### **WARRANTY**

We warrant that all seeds sold are true to description. However, we give no warranty, express or implied, as to the productiveness of any seeds we sell. The extent of our liability is always limited to replacement of seeds. The purchaser accepts these terms when an order is placed.

## **SEED PROCUREMENT**

Seed is sourced through our own skilled collectors and our Australia-wide network of experienced collection experts established over three decades as native seed traders.
